### —Chinese Try To Cut Southeast Railway— Reds Slice South To Trap Division

#### Eney Speeds By Flank Of U.N. Wonju Defenders

TOKYO—(AP)—A spearhead of reds, 30 miles south of the U. S. Second division's most northerly salient, was reported speeding southward in central Korea Friday.

The drive apparently was aimed at cutting the southeast railway at Tanyang.

U. S. Eighth army headquarters reported leading elements of the red force were 10 miles south of Chechon and six miles from Tanyang, 73 miles south of the 38th parallel.

Correspondent William C. Barnard reported from U. S. Second division headquarters Thursday night that two North Korean divisions—about 20,000 men—were sliding past the Second's right (east flank). The Second division troops were holding a horse-shoe-shaped bulge with its top a mile and a half south of Wonju.

**Buildup Continues**  
The main force of some 285,000 Chinese and North Korean communists pressing the U. S. Eighth army on the western front continued its buildup and slow shift southward for an expected great new offensive.

The flanking move apparently was aimed at trapping the entire Second division by driving through Chechon, and striking southward for Chungju. Chungju is only 90 miles north of Taeju on the main highway and rail route leading to the southeast corner of the Korean peninsula. On the western front, Chinese communists moving 60 miles south of the 38th parallel began moving about 1,500 frontline troops south of Osan. That town is 23 miles south of red-held Seoul.

Allies warplanes went back into action briefly Thursday afternoon after two days of impossible flying weather. Navy planes hammered reds in the Wonju area. U. S. Fifth air force fighters and bombers estimated they killed or wounded 1,400 red troops near Seoul and around Suwon, 20 miles south.

### \$1,000,000 Defense Bill Placed On General File

#### Budget Committee OK's After Peterson Says Matter Is State Responsibility

By ARCH DONOVAN  
Star Staff Writer

An emergency appropriation of \$100,000 for civilian defense, between now and July 1, was unanimously sent to general file of the legislature Thursday by the budget committee after hearing Gov. Van Peterson make a plea in its behalf.

"It is a state responsibility," the governor reiterated. "Civilian defense in 1951 is not like civilian defense in the past. It is indefinite as yet on the state and local level and even on the federal level."

The governor said he has not read the federal law passed by Congress and Defense Director Edward Gillette explained that he likewise is unfamiliar with provisions of the law. Gov. Peterson pointed out that certain phases of preparedness, such as stockpiling of medicine, would probably be a federal responsibility.

"Everything possible up to this time has been done," the governor explained in pointing out that doctors, nurses, the fire marshal and a university professor, who is a member of the national guard, and Director Gillette have been sent to national meetings.

In the future, he said, it will be necessary to organize the cities on a block basis with home training for those living in the block.

**Prudence Required**  
"Prudence requires that we make such preparations as we can," the governor said in explaining that the \$100,000 requested will only be spent in such amount as is necessary. Present plans, he said, call for an expenditure of \$34,000. He said he was asking \$12,500 for the director for two years but expected to start him at an annual wage of \$5,000 to be increased later.

Two stenographers, one full time and one part time, would also be hired. Provision is made for an assistant director at \$3,600 a year, but it is not planned to employ one at present.

The remaining \$66,000, the governor explained, would be available for such use as would meet the federal law. He said he expected the state would be asked to stockpile cots and probably some other items.

On questioning by Sen. Ralph Hill, Gillette said it was the plan to coordinate the work with the activities of other state agencies such as the health and highway departments, the fire marshal, etc. He said the safety patrol would be a very valuable unit with radio equipped cars and men in all sections of the state. "I was just thinking of saving as much of the \$100,000 as possible," Hill explained.

Sen. Earl Lee of Fremont, who introduced the bill, said that in his opinion it was "absolutely necessary because there is a lot of spade work required in advance." He cited an example of civilian requirements the possibility of having everyone blood typed.

"If we rely on everyone we will not get the job done," Lee asserted. "The defense committee was set up by the legislature in 1949. It did not go far enough and we will have to amend the act or submit a new bill to give the governor more power."

No details on the power the governor will seek were revealed.

Sen. Herbert W. Duis of Gothenburg, who was released from the army when elected to the legislature after a campaign conducted by his wife and a group of friends, told of an experience he had while in camp at Ft. Monmouth.

### Most Of Nebraska To Get Light Snow; Rain In Southeast

Winter in Nebraska was not over as the weatherman said light snow would spread throughout the state Friday, except for the southeastern portion.

The snow is expected from the west as temperatures range from the 30s there on to 40 and 50 in the southeast. The southeastern Nebraska area is scheduled to get occasional rain Friday.

### —Unicameral— More Pay Asked For Appointees

#### Water Pollution Agency Offered In Lillibridge Bill

Interpretation of LB 104 by Sen. Ray Babcock of Sidney, which was introduced in the legislature Thursday, shall be "to provide, in the public interest, adequate compensation as therein provided for such officers and employees," the bill states.

It provides for the following increases:  
Clerk of legislature from \$4,500 to \$5,000.  
Liquor commission \$4,000 to not over \$4,600, to be fixed by governor.

Secretary of commission \$3,200 to \$4,000.  
Railway commission secretary \$3,600 to \$4,200.

Deputy state superintendent \$3,800 to \$4,200.  
Purchasing agent \$4,000 to \$5,000, fixed by governor.

Board of control \$4,000 to \$4,600, fixed by governor.  
Board of control secretary \$3,600 to \$4,200.

Deputy attorney general \$4,800 to \$5,400.  
Auditor, treasurer and secretary of state each \$3,600 to \$4,200.

Secretary educational lands and funds \$2,600 to \$3,600.  
\$800 Extra.

Board of control members receive an additional \$800 yearly for directing activities of the assistance program.

Under LB 94 introduced by Sen. C. C. Lillibridge of Crete, the state health department is designated as the water pollution control agency. The bill sets a public policy the need for a comprehensive program of prevention, abatement and control of pollution.

The bill provides for a nine-member water pollution control council to be appointed by the governor. The health department director will be chairman.

**Other Members.**  
Other members will include the state engineer, director of the department of agriculture, secretary of game commission and five members, one representing industry and another municipal government. Pay will be \$10 per day actually in session.

The council is authorized to group water in classes after public hearings and set standards. Permits will be required from the department for discharge of waste into waters of the state.

Among other bills introduced was one by Sen. Otto Probst of Gering to repeal the bonus bill for development of the first oil wells in a county. The bill provided that the state pay a \$10,000 bonus and the county \$5,000, but no provision was made for the county obtaining the money.

**Passed Over Veto**  
The law was passed at the last session when Sen. W. Halsey Bohike introduced the measure in having it passed over the veto of Gov. Val Peterson.

Sen. Glenn Cramer offered a bill that would require city engineers to make estimates on the cost of equipment to be used for street work, etc., before purchases are made.

In incorporated religious organizations would be brought under the applicable state corporation laws under a bill offered by Sen. Charles Tyrdik.

**Advertising Waiver**  
Second class cities and villages would be permitted to waive advertising for bids to meet emergencies in a bill offered by Sen. Cramer. Accident reports of cities and the state would be open to public inspection under a bill by Sen. McKnight.

Fee for filing of compensation court awards or orders in the district court would be set at \$10 in another new bill. Various fees of the clerks of the district court are also proposed to be increased.

A revolving fund of \$10,000 is established for the merit system, which is reimbursed by participating agencies, under terms of a bill by Sen. H. G. Wellensiek.

Grigalowski of Gardener, Mass., who lost a leg in World War II, is suing the government for \$265,000, alleging that his daughter, Ann, was given improper treatment at the Fort Leavenworth, Kas., army hospital in 1947. Ann, shown with her mother and father, is said to have a hole in her back which developed from the treatment. (AP Wirephoto Thursday Night.)

### Lawmen Seek M'Cook Gunman, 'Possibly' Desperado Bill Cook

Law enforcement officers in Nebraska Thursday night were still hunting a gunman driving a 1949 or '50 two-door Plymouth sedan who may be outlaw Bill Cook, an ex-convict suspected of killing at least eight persons.

The alarm went out after the unidentified man led a McCook deputy a running gun battle at 95 miles an hour during the morning. The man in the Plymouth sedan is known to be armed with a sawed-off shotgun.

The deputy sheriff, Fred Dolan of Red Willow county, was struck in the face with shotgun pellets, but chased the sedan 14 miles on Highway 83 north of McCook until his car left the road on a curve.

**'Very Possibly' Cook**  
At Lincoln, Lt. Dan Casey of the state patrol said the man in the running gun battle "very possibly" may be the fugitive William E. "Bill" Cook, a desperado wanted throughout the southwest.

The alarm went out for the Plymouth sedan Thursday morning, Lt. Casey said, but there had been no leads turned up late in the day. Casey said the description of the gunman seems to fit Cook's and the tactics used are his.

"Of course, we don't know," the patrolman said, "the only description we have is the gunman's height of about five and a half feet, and that fits." There is, he said, a strong possibility the man is Cook.

The gunman's car, spattered with red mud as if he had driven a long way through the southwest, was thought to be heading toward North Platte from McCook.

The chase at McCook early Thursday morning started when Deputy Dolan foiled what appeared to be an attempted car theft at the Shamrock Auto Sales court.

It ended on Willow Hill curve north of the city when Dolan, driving with one hand at speeds up to 95 miles an hour, shooting with the other hand and bleeding from gunshot wounds in the face, lost control of his car.

Dust obscured his vision on the curving road.

Deputy Dolan, who failed to get a good look at the gunman, related the account of the early morning, running gunfight.

Dolan noticed a car with its trunk open and lights on in front of the Shamrock court as he was on his way home. The deputy parked his car with lights off, and saw a man near one of the cars on the lot.

When the gunman broke a car window with a rock, the deputy sheriff gave chase, but the man jumped back in the car with the open trunk and pulled away.

**Opens Fire**  
Following in his own car, Dolan pulled even with the man's car about eight miles north of McCook. Traveling about 95 miles an hour, the fugitive opened fire at Dolan, breaking Dolan's car window. Three pellets from the riot gun entered the right side of Dolan's face.

Dolan returned the fire but was forced to drop back.

About ten miles out of the city, the fugitive's car missed a curve, went off the highway but righted itself again. Dolan continued the chase but got lost in the dust, missed a curve and ran down an embankment. He then walked a quarter mile to a farmhouse and phoned Sheriff Emmet Trosper, who alerted the state patrol.

Sheriff Trosper picked up his deputy and the two drove toward North Platte looking for the gunman. They returned to McCook about 8 a.m. and Dolan only then received medical treatment for his face injuries.

### Troops Can Be Sent Anywhere In World

#### President Asserts, However, He Will Consult With Congress Chiefs First

WASHINGTON—(AP)—President Truman said Thursday that price and wage controls are on the way.

They will be put into effect as soon as possible, he told his news conference.

As to whether prices will be rolled back to some previous level, he said he would have to cross that bridge when he got to it.

Mr. Truman wouldn't say whether he would ask congress to change provisions in the present law under which ceilings cannot be placed on some food prices until after they reach an arbitrary parity figure.

**Will Consult First**  
Mr. Truman said he will consult with congressional leaders before sending additional U. S. troops to Europe for a combined defense force.

Mr. Truman told reporters he does not have to seek congressional approval. There is no question, he declared, about the authority of a president to send troops anywhere in the world. He said this authority is recognized abundantly throughout the history of this country.

**Message Ready**  
President Truman said he will send his economic message to congress Friday.

He told a news conference that advance texts of the message would be made available to newsmen late Thursday evening.

The white house said advance texts would not be available until 8 a. m. (est) Friday.

### Building For York OK'd By Trustees

YORK, Neb.—(AP)—The York college board of trustees Thursday voted unanimously to erect a new administration building to replace one destroyed by fire a week ago.

The cost was estimated at \$300,000.

The board said an architect would be employed to draw up plans. Construction will start "at the earliest possible moment," board members said.

Thursday's meeting was described as "the largest in years" with officials of the Evangelical United Brethren church, two bishops and 25 board members present.

Every conference in the area, California, Colorado, New Mexico, Kansas, Iowa, Missouri, Montana, Oklahoma, Oregon and Nebraska, was represented.

Bishop Ira Warner of the Pacific area presided. Bishop C. H. Staffacher of Kansas City was elected chairman of the board of trustees, succeeding the late Bishop V. O. Weidler.

### Vatican Bars Its Priests From Rotary Membership

#### ... Club Officials In U.S. Are Puzzled

VATICAN CITY—(AP)—Roman Catholic clergymen were forbidden Thursday to belong to Rotary clubs and Catholic laymen were warned to follow canon law in regard to membership.

The ban was disclosed with publication by the Vatican's newspaper, L'Osservatore Romano, of a decree by the supreme sacred congregation of the holy office, which Pope Pius XII heads.

The reasons were not stated. Spokesmen of Rotary International indicated they were mystified.

However, a source connected with the newspaper said the decree appeared aimed at European and Latin American countries, where Masonic connections have been attributed to Rotary, rather than against Catholic membership in Rotary in the United States, where the international organization was founded 46 years ago.

**Old Differences**  
Differences between the Catholic church and the Masonic order, which was founded in the British Isles, are centuries old.

Mussolini's fascist government banned Rotary from Italy on the charge that it was connected with Masonry.

Pending definite clarification of the new decree, there was a suggestion the final interpretation might be left to the Catholic leadership in the separate countries.

The ban on Catholic clergymen belonging to Rotary organizations anywhere, however, was stated plainly. The decree said they must not even attend Rotary meetings.

**Secret Organizations**  
Laymen, the decree said, should be exhorted to follow the dispositions of Canon law No. 84 where Rotary is concerned. That law warns Catholics against membership in certain secret organizations.

**Eleven Fliers Rescued After Jump From Plane**  
ALBUQUERQUE, N. M.—(INS)—Eleven men who parachuted from a crippled military transport were rescued early Thursday from the desert about 20 miles west of here.

A spokesman at Kirtland field said one of the jumpers suffered a bruised leg. Engine trouble forced the pilot to order "abandon ship."

BROTHERS ALIVE, BUT AWAIT DEATH—George Godfrey (rear with bow tie) and his wife, Amos, sit with three of four sons in their tenement flat at New York. The sons all are calmly awaiting death from a disease for which doctors know no cure. They are suffering from muscular dystrophy, a progressive disease that always ends up attacking the respiratory powers. Here Michael (left), 12, displays his erector set. Watching with their parents are George, jr. (second from left), 24, and F. J. 21. The other Godfrey son, Robert, 18, was attending school. (AP Wirephoto.)

CHILD BRIDE—The former Virginia Pennell, 12 (above), is the wife of Donald E. Gray, 19. She quit the sixth grade in school to become a wife. In applying for a marriage license, she gave her age as 19. (AP Wirephoto Thursday Night.)

# Wage And Price Freeze Shelved

**Government Decides, Instead, To Continue Selective Controls In Specific Industries**  
WASHINGTON—(AP)—Economic Stabilizer Alan Valentine announced Wednesday night that the government has shelved any idea of an immediate "across-the-board" wage-price freeze.

## Collegians Should Stay In School

**Don't Jitter Self Into Idleness Over Draft**  
BY MERRYLE STANLEY RUKESER

International News Service Economic Commentator  
Male students on American college campuses have been made a little jittery by the shifting of plans for their induction.

Instead of merely marking time prior to military service, the best advice is: Stick to your knitting; make every minute count in productive activity.

Just as the slogan for workers in 1951 should be "produce and relax," students should be calm in the face of national and personal uncertainties.

Through intelligent formulation of national policy at Washington, instead of drifting, government officials can reduce the harm incidental to unnecessary uncertainty.

The justification for selective service is that each will be used at a post deemed most in the national interest.

Prior to induction, younger men should be working or studying, not frittering away their time in unproductive waiting.

**Commons No Defense.**  
The rush in recent months into common stocks as an inflation hedge should not render citizens who have thus rearranged their funds, complacent toward fiscal and monetary misbehavior at Washington.

It is sheer illusion to assume that there is a way of escaping the adverse consequences of an uncontrolled inflation.

While, in a limited inflation, stocks are better fortified than high grade bonds against depreciation in the buying power of money, an unbridled inflation of the continental currency variety is something else again.

In the event of such catastrophe, individual hedges will at best gain time for the individual.

Under the circumstances, the best protection lies in citizen insistence on fiscal and monetary prudence at Washington.

With the anti-"Fair Deal" complexion of the 82nd congress, it may be expected that congress will be sympathetic to the fiscal ideas espoused by Sen. Harry F. Byrd, Democrat of Virginia and

This new improved warning on tavern walls is an emphatic reminder of the law's stiff penalties to minors found guilty of misrepresenting their age to purchase beer.

The sign urges persons to notify the owner promptly when they see a minor obtain and drink beer.

Nebraska retailers want complete observance of the law and welcome every aid to prevent unlawful sales.

In doubtful cases, customers are asked to sign "Sworn Statements of Age" blanks.

**You Can Help**  
1—Never ask your retailer to sell beer contrary to law.  
2—Don't object if he requests proof of your age. Be as good a citizen as he, cooperate in helping him operate his place legally and in the public interest.

**Spinster Leaves \$400 For Fancy Cat Funeral**  
CINCINNATI, O.—(INS)—The will of the late Miss Julia G. Haley, elderly Cincinnati spinster, has set aside \$400 to cover a fancy burial for her two pet cats.

Miss Haley's will—on file Wednesday in Probate court—said that she did not want the cats to become homeless after her death.

She left \$40 to Harry O. Porter, superintendent of the Hamilton county dog refuge, with the request that the cats be put to death in a painless manner and buried.

# Like To Earn A Half-Million? Here's How

By JIM COUFAL (Star Staff Writer)

Would half-a-million dollars in crisp, green dollar bills help fill your wallet?

You can earn that much, and do the country a favor, too, if you round up all the check forgers, murderers, post office robbers, and missing persons whose pictures grace the Lincoln police station's bulletin board.

For a start, pick the man who is wanted for the robbery of a post office. The government will pay you \$2,000 for the job, but won't be responsible for your hospital bills or funeral expense.

**Get Brinks' Boys**  
If you're after bigger game, there is \$200,000 waiting for the man who catches the Brink's, Inc. robbers. Don't discouraged just because the FBI, private detectives and police across the country failed.

Two-hundred thousand dollars might pose income tax problems. Would you like to try for half that? Then bring in the man, or men, who tried to kill Walter and Victor Reuther, leaders of the United Auto Workers, CIO.

Of course, there's smaller fry. Half a hundred passers of worthless checks are worth \$25 and \$50 if caught.

As an amateur, you had better skip a 32-year old man, who can be identified by a partially paralyzed right little finger. He kills people.

**Last Resort**  
However, don't think your job will be easy, or that police should be put on a commission basis for the crooks they catch. Rewards are seldom offered until all the immediate means of catching the culprit are exhausted.

There is one glimmer of humor in this sordid tale of crime, though. Detective Victor H. Wright, of 1420 South Twelfth, who posed for the picture above, remembers the tale of a thief caught in another state.

He was picked up while looking at his own picture on a post office bulletin board. "How did you know me?" he asked the cop who made the arrest. "I'm much better looking than that."

**Washington Envoy Knifed**  
... Hungary Alien Held

WASHINGTON—(INS)—A vengeful alien stabbed and seriously wounded a woman official in Hungary's embassy Wednesday.

Stabbed was Miss Ida Gyulai, 52, counselor of the embassy. Her assailant was identified as Hendrick Gartner, a New York City caterer worker, who has lived in the United States for 26 years.

A charge of assault with a deadly weapon was lodged against Gartner. A physician who attended Miss Gyulai said her condition is fair.

Detective Chief Robert V. Murphy quoted Gartner as saying the woman had blocked his attempt to return to Hungary to see his family.

## Peterson And Budgeters Burn The Midnight Oil

Fluorescent lights were burning brightly in the office of Gov. Val Peterson Wednesday night before the budget committee of the legislature called it a day. They had been in executive session with the governor since 2 p.m.

Chairman Arthur Carmody avoided the terse and commonly used expression, "No comment." Instead the genial Trenton senator explained: "It was an executive session. This is the budget committee. If your guess is that we were discussion state finances you probably would not be far wrong."

The miscellaneous appropriations and small claims committee spent a couple of hours considering claims made against the state. About 50 miscellaneous claims were considered.

**Judiciary at Work**  
The first bills to be advanced to general file by a committee were approved by the judiciary committee. The bills were in the nature of corrections in statutes.

**New York Reported Ready For A-Bombs**

## John Bull's Dollars Are Multiplying

... After Good Year  
LONDON—(AP)—The treasury reported Wednesday night that Britain's gold and dollar reserves for 1950 totaled \$3,300,000,000.

Her balance of trade—the surplus left over after buying and selling her goods on the world market—was more than £200,000,000 (\$560,000,000).

These figures spelled out in terms anyone could read the extent of what Britain's economic boss, Hugh Gaitskell, called "a year of outstanding economic recovery for Britain and the sterling area—a real success story."

In the last quarter of 1950 alone, the gold-dollar reserves shot up \$544,000,000.

To a nation which was limping along at the end of 1949 with a reserve of \$1,688,000,000, Gaitskell's boast seemed modest.

## John J. Ryan, 73, Retired Fireman, Dies At Home Here

John J. Ryan, 73, of 1315 F, died Wednesday at his home. Born in Illinois, Mr. Ryan was a member of the Lincoln fire department. At the time of his retirement, he was an assistant chief.

He was a member of the St. Mary's Cathedral church. He is survived by his wife, Nellie; two daughters, Mrs. Esther Schnell, Seattle, Wash., and Mrs. Ruth Majka of Lincoln; a son, G. L. Ryan of Lincoln; a sister, Mrs. John Sullivan of Lincoln, and 6 grandchildren.

## Alvin Keszler, 58, Dies At Home Here

Alvin Keszler, 58, of 4017 F, died Wednesday at his home. Born at Martel, Neb., Mr. Keszler had lived in Lincoln 27 years. Mr. Keszler worked for the Lincoln street department where he was head mechanic.

He was a member of the Elm Park Methodist church. He is survived by his wife, Louise; two sons, Melvin and Kenneth, both of Lincoln; two brothers, George of Lincoln and Carl of Winner, S. D.; four sisters, Mrs. Margaret Bohmont of Julesburg, Colo., Mrs. Anita Bute of Lincoln, Mrs. Anna Faig and Mrs. Oleda Williams, both of Martel, and two granddaughters.

## Nazi 'Witch' Causes New Court Scene

... Carried To Auto  
AUGSBURG, Germany—(AP)—Isle Koch, the "red witch of Buchenwald," collapsed in court again Wednesday.

Mrs. Koch slumped in her chair and rested her head on a table at the end of a long session.

Two women court attendants rushed to her side and carried her to an automobile.

Presiding Judge George Maginot ordered doctors to examine Mrs. Koch in her prison cell.

The widow of a former commander of Buchenwald concentration camp, Mrs. Koch is accused of inciting murders of German and Austrian prisoners during the Nazi regime.

She burst into a screaming frenzy a month ago and was rushed to a hospital. Doctors declared she was faking illness to delay her trial.

Numerous former Buchenwald inmates have testified that Mrs. Koch had prisoners beaten and occasionally lashed them herself with her riding whip.

**Brule Voters Approve \$50,000 School Bonds**  
BRULE, Neb.—(AP)—Voters here have approved a \$50,000 school bond issue.

The vote was 129 for the 91 against. An estimated 95 per cent of the qualified voters participated in the election.

## Townsend, 84, Finally Files For Old-Age Aid

LOS ANGELES—(IN)—Dr. Francis E. Townsend, veteran advocate of old age pensions and one-time powerful political figure, Wednesday filed application for his own old age benefits.

Dr. Townsend, 84, and his wife, who is more than 65, will draw a joint pension of \$105 a month for life. He said he had not filed for his pension before because it had "slipped my mind."

## Why Mathematics is Essential to Education

By J. Gordon Roberts  
All modern language, except the language of mathematics is based upon ancient mythological conceptions. The language of words without mathematics, according to modern scientists, gives us a distorted view of reality such as we see in one of the curved mirrors at a carnival fun-house. The language of words gives us no concept of structural relationships. In the individual, such distortion, if not recognized, may result in irrational motivation.

Let us examine such effect. "Great" leaders may destroy civilization through changing the structure of society without any appreciation whatsoever of what they are doing. Rome, for example, developed through the initiative of sturdy individuals. Augustus Caesar declared himself to be a god and told the Roman people in effect that their individualism amounted to nothing.

Thus, without any understanding on the part of Augustus Caesar that he was altering totally the pattern of Roman society, he radically changed its structure, and Rome retrogressed rapidly from that time forward.

**Spinster Leaves \$400 For Fancy Cat Funeral**  
CINCINNATI, O.—(INS)—The will of the late Miss Julia G. Haley, elderly Cincinnati spinster, has set aside \$400 to cover a fancy burial for her two pet cats.

Miss Haley's will—on file Wednesday in Probate court—said that she did not want the cats to become homeless after her death.

She left \$40 to Harry O. Porter, superintendent of the Hamilton county dog refuge, with the request that the cats be put to death in a painless manner and buried.

# Marshall Firm On Draft Age Of 18

## Defense Boss Sticks To Formula Despite Sharp Quizzing

WASHINGTON—(AP)—Immediate universal military service starting with a draft of 450,000 18-year-olds this year was urged on congress Wednesday by Defense Secretary Marshall.

The proposal to draft at 18 instead of the present induction age of 19, and a companion plan to extend the service period from the current 21 months to 27, brought immediate sharp questioning from members of a senate armed services subcommittee.

Marshall and Assistant Secretary Anna Rosenberg, his chief manpower aide, stuck tight to their original formula, however. Mrs. Rosenberg stood firm in the face of questioning by Sen. Sutherland (R-Mass.).

His questions brought out that the actual "take" of 18-year-olds this year would be 550,000, counting 75,000 who would be in college under various mili-

tary schooling programs and thousands of others in uniform but taking special military courses in school.

Questions Limited. Immediately, at least, the questioning revolved more around the age limit and service term proposals than the long-range plan for training all youths in the future and requiring service by them.

Many of the committee members have indicated they favor training for all, but the universal requirement for actual service in the armed forces is something else.

Secretary Marshall advanced the plan as the best way to meet urgent needs for fighting manpower now and to provide guardians for the nation's future safety.

The defense secretary explained that the world situation had led the defense department to back the new proposal in place of the training-only plan previously advocated for the future.

As sketched by Marshall and filled in by Mrs. Rosenberg, the system would work like this:

1. Young men reaching 18 would become liable for service if physically and mentally fit. (Now they only have to register at that age.)

2. Only about 450,000 of the estimated 1,050,000 reaching 18 would be actually inducted the first year, partly because that is all the service could handle well. In practice those nearest their 19th birthdays would be taken unless they got individual deferments. The plan would aim at taking substantially all non-deferred eligibles in later years.

3. Students usually would be deferred to graduate from high school or finish a college year.

4. Those called would get a minimum of four months' training before they go into regular service. Marshall said that in general youths under 19 would not go overseas, but he didn't want "our hands tied" by law. The actual service period of 23 months could be cut by the president if needs grow less.

5. For the first three years of the plan, 75,000 a year would be deferred for study in medicine, the sciences and other needed specialties, but they would get their four months' basic training first and would "owe 23 months service."

Marshall and his aide, discussing educational deferments, emphasized that there would be precautions against building up "an aristocracy" of either education or wealth.

Mrs. Rosenberg said such deferments would be made upon "general qualities of intellect and leadership" and not solely scholarship.

## Second Presbyterian OK's Year's Budget Of \$16,750

A 1950 budget of \$16,750 was adopted Wednesday night by members of the Second Presbyterian church at the annual congregational meeting.

O. H. Liebers, chairman of the finance committee, said that the budget for 1950 had been \$13,599.90.

New officers elected for the coming year were: Session members, serve three years: Wallace Lamphere, Gool Pavey, Jack Rediger, M. H. Usher, Norris Anderson. Trustees, serve 3 year terms: Herbert E. Jones, Eldon Baker, Joseph Kubik, Edson Baker. Deacons, serve three years: Paul L. Jones.

Mrs. Grace Haskins was re-elected financial secretary. Mrs. O. H. Schenk and Mrs. L. G. Beers were re-elected to the finance committee.

## Russia-West Talk Wanted

... On Korean War

LONDON—(P)—Commonwealth premiers came out Wednesday in favor of western talks with Russia as they pondered ways of ending the Korean war.

Britain and India were said to want red China admitted to the United Nations as part of the settlement.

Both countries apparently are ready to help negotiate a cease-fire in Korea by going some of the way toward meeting red China's demands for U. N. membership and the return of strategic Formosa. Britain's Foreign Secretary Bevin was said to have told the premiers that red China's admission to the U. N. would help end the Korean war.

Look At Europe

The nine-nation group also took a long look at the European political and military scene. They were said to have agreed east-west talks should be held to settle the quarrels of the cold war. But they laid down two broad conditions:

1. The west should freely enter talks with Russia under no threat of force.

2. The big powers should carry out a wide agenda to insure positive results from the parley.

Conference informants said Bevin's views were expressed in putting forth principles which Britain feels should govern a Korean settlement. They were not proposals.

Bevin opposed the idea of getting bogged down earlier in a limited or open war against China and spoke out against imposing any economic sanctions on the Chinese communists.

## New Oath Bill Aimed At Congress Members

WASHINGTON—(INS)—Rep. Burdick (R-N. D.) introduced a bill Wednesday which would require congressmen to swear under oath that they take no "kickbacks" from their employers.

Burdick said he offered the measure because it is up to congress rather than "news columnists" to keep tab on its members.

He has been pressing for such action since former Rep. Thomas (R-N. J.) was sent to prison for illegally requiring members of his office staff to give him part of their government-paid salaries. Rep. Brehm (R-Ohio) was recently indicted on a similar charge.

## Secretly To Youth, 19

ST. LOUIS—(INS)—A 12-year-old St. Louis schoolgirl revealed Wednesday that she married a 19-year-old neighbor, Dec. 22.

The girl is Virginia Pennell, her mother, Mrs. Thomas Pennell, said: "I didn't agree to it at first but now that they're married, what can I do?"

## CARRIERS PLAN DINNER

The Lancaster County Rural Mail Carriers association discussed plans for its annual Washington's day dinner at its meeting Wednesday night. The county group will be host to the first district of the Nebraska Rural Mail Carriers association.

Tricycle Stolen — A maroon tricycle, worth about \$30, was stolen from the back porch of the C. J. Bruechert apartment at 1701 South Twenty-fourth sometime during the Christmas holidays, Bruechert told police Tuesday.

He gets extra food-energy from Royal Gelatin Desserts. 21 child specialists found Royal Gelatin Desserts doubly ideal for children—ideal for food-energy and ideal for digestibility. That's why luscious Royal Gelatin is "the Dessert that loves kids." Grownups, too, welcome all seven tempting flavors. \*Starring in "The Prowler," a United Artists release.

## Europe's Flu Epidemic Toll Nearly 200

LONDON—(AP)—Europe's influenza outbreak, which already has taken nearly 200 lives, showed no signs of receding Wednesday night.

A spokesman for the British health ministry said it was difficult to predict how long it would take the disease to run its course or where the next outbreak might occur.

A severe outbreak has occurred in Greenland. One village counted 17 dead. New cases were reported in north-eastern and northwestern England—the hardest hit areas of Britain.

Influenza struck Sweden during Christmas week. Swedish health authorities said the outbreak was the worst in at least a decade.

Physicians along the north German coast listed 23 deaths. They said the epidemic there was the worst in years.

## Isolationists Blamed For U. S. Troubles

MIAMI BEACH, Fla.—(INS)—Sen. Sparkman (d. Ala.) said Wednesday that much of the trouble America faces now "is due to our having followed an isolationist policy."

He warned that "to capitulate to Russia as Messrs. Hoover and Kennedy would have us do would give the Soviet Union military resources and economic power vastly superior to any that would be then available to us for our own security."

Sparkman spoke at the annual convention of the National Automobile Dealers association here.

## Pay For Plumbing When Main Broke

O. J. Zimmerman, 4129 Garfield, notified the city Wednesday of its alleged liability to the extent of \$66.59 in connection with damage he sustained as a result of a broken city sewer main.

Zimmerman said in his notification that the city sewer main had broken but that he had his own sewer torn up in the belief that his drain had stopped up and flooded his basement.

It was later found, he alleges, that the city sewer main was broken and caused the flooding.

## Debt Payments Top Year Plymouth Congregational

was the financial highlight of the year for the First-Plymouth Congregational church, a report at the church's annual meeting Wednesday night pointed out.

Payments on the building fund and for reconditioning the church organ were made by special donations totaling \$14,588. A special reserve was set up for major future repairs and totals \$7,419. Income for all purposes during 1950 was \$66,845.

Reports indicated an average increase in church attendance at worship services. Young people's work continued a high level and three adult couples' clubs reported a membership of nearly 200.

Special acknowledgment was given to Dr. Arthur E. Westbrook, director of musical presentations.

The church membership now stands at 2,023 active members. The report stated that, on the basis of finances and work accomplished, the church has received the "highest peak of achievement in the 85 years of its history."

Following are the results of the annual church election:

For the board of trustees: William I. Altken, Fred Groth.

J. P. Seeling, T. A. Sick, Walter Wilson, J. E. Miller, E. C. Bjorklund, C. C. Camp, Ben Norris, Eugene C. Reed, Stephen Taylor, To the music committee: Mark Bullock, Ben Joyce, Don Parker, Ben Joyce, W. A. Robbins, D. A. Worcester, Board of religious education: Mrs. George, E. J. Stovall, Mrs. F. Klippert, Board of ushers: Charles I. Anderson, J. J. Deuser, Charles H. Shelton, Max Barrett, Harry H. Drett, John W. Stahn, Willard C. Beck, A. W. Griffin, R. H. Steinacher, J. E. Burrese, Guy Harris, J. S. Wallace, Harold Carl, E. K. McMahon, Carl Vandervelde, Don Parker, James O. Weaver, C. J. Vanchar, Eugene C. Reed, R. R. Wilson, Charles C. Worrall, Lynn Cox, Don C. Yungblut, Landy Clark, Fred Sharp, Charles C. Worrall, Communion committee: Mrs. Elia Tucker, Mrs. H. C. Burgess, Mrs. W. P. Fulton, Mrs. J. J. Hadley, Mrs. H. M. Holbert, Mrs. H. S. Knapp, Mrs. C. C. Meligan, Mrs. Tracy Pierce, John Wickman, Mrs. E. C. Bjorklund, Mrs. T. R. Crawford, Mrs. Guy Harris, Mrs. Jessie Jury, Mrs. C. O. Martz, Mrs. G. L. Pettler, Mrs. C. L. Stewart, Boys' work committee: E. Burnham Anderson, Howard Coffman, Walton C. Ferris, Alton Moore, Harry L. Shaffee, Harry L. Snowden, William C. Trout, Wes J. Wendling.

Max Barrett, Robert A. Dobson, Burt W. Hunt, Arthur E. Perry, Kenneth E. Smith, John Stahn, Glenn E. Turner, Girls' work committee: Mrs. Howard Burnett, Mrs. John Hansen.

Actress 'Liz' Taylor Hospitalized With Flu. HOLLYWOOD—(INS)— Film Star Elizabeth Taylor was admitted to Cedars of Lebanon hospital Wednesday with what her physician diagnosed as influenza.

# Acheson To Ignore Taft's Bid For Special Favor

WASHINGTON—(AP)—Secretary of State Acheson said Wednesday he is always ready to discuss American foreign policies with republicans in congress but has no plans for calling in Sen. Taft (R-Ohio).

The administration, he noted, already consults the minority party through republican members of the senate foreign relations committee.

Acheson made his remarks at a news conference when reporters questioned him about Taft's offer to "sit down with the president or anybody else" in the administration to work out a bipartisan foreign policy.

Taft made the offer in a speech at the National Press club in which he charged the administration with giving congress only a yes-or-no choice in major foreign policy decisions.

Acheson rejected Taft's idea that, in the United States must write off the United Nations as a mere "debating society."

While Acheson conceded that a U.N. failure to solve the Korean crisis would diminish its prestige and power, he said it would be an overstatement to contend that survival of the international organization depends on achieving a settlement.

Only Tuesday, Acheson said, he had a useful talk with Sen. Ferguson (R-Mich) and the East and Middle East.

Acheson said the administration is somewhat pessimistic

over prospects for success of another approach to the Chinese communists. He said, however, he wants to make it clear that every effort is being made to press for a settlement even while urging that Red China be branded an aggressor.

## Insurance Firms Seek War Clauses

More and more of Nebraska's licensed life and fraternal insurance companies are requesting permission to insert war clauses in their policies, State Insurance Director Bernard Stone told The Star.

Thirty-two such requests have been approved by the state to date, he said.

Six other requests have been received and are being considered by the department, Stone said.

There are 158 licensed life and fraternal insurance companies in the state.

Stone said, however, that he did not know how many companies which have had war clauses approved are actually using them.

War clauses must first meet these requirements before they are approved by the department:

1. The death of the insured must result from having engaged in the military, naval or aviation services of a country at war (declared or undeclared).
2. Death of the insured must have occurred outside the home area or within six months after his return to the home area but as a result of injuries or wounds incurred outside the home area.
3. The definition of "home area" must include at least the United States and Canada.
4. The limitation of liability for deaths of civilians who are traveling outside the home area or who are serving in forces auxiliary to the military, naval or air forces shall be effective for a period not to exceed two years from the date of issue of the policy.
5. Each company shall agree to call the attention of the insured to the attachment of a war exclusion rider by adopting one of the two following alternatives:

- a. The securing of an agreement signed by the insured, separate from the application for insurance, for the attachment of the war clause.
- b. Showing on the face of the policy in red and capital letters a suitable statement to the effect that war restrictions (including aviation restrictions) are contained in the policy.

The war clause requests started coming in soon after the outbreak of the Korean war, Stone said.

### Estate Inventory

An inventory of the estate of Katherine Spahn, who died Mar. 7, 1950, lists a Lincoln property valued at \$5,500 and \$50 in furniture.

## Legislative Bills

(Introduced Jan. 10)

- LB 79, Klaver, Prohibiting sale and use of fireworks in Nebraska. (Emergency.)
- LB 80, McKnight, Enabling military department to purchase as well as construct buildings with its share of state building fund.
- LB 81, McKnight, Appropriating \$14,000 toward construction of national guard vehicle building at Fairbury. (Emergency.)
- LB 82, Williams, Anti-communist bill. (Emergency.)
- LB 83, Lusinski, Changing land surveyor to state surveyor and increasing fees. (Emergency.)
- LB 84, Tyrdik-Vogel, Increasing weekly benefits for workmen's compensation from \$20 to \$24. (Emergency.)
- LB 85, Tyrdik-J. Adams-Person, Increasing nurse registration fee to \$2.
- LB 86, Peterson, Raising ceiling on warden's salary from \$3,600 to \$5,400.
- LB 87, Burney, Requiring written report to court before final disposition of the case of a neglected, dependent or delinquent child.
- LB 88, Burney, Requiring juvenile court approval before any person shall receive a child under 16 for adoption or permanent care.
- LB 89, Burney, Providing written report to juvenile court in divorce or alimony cases involving custody of children.
- LB 90, Burney, Requiring approval by juvenile court unless child is relinquished to licensed child-placing agency.
- LB 91, McKnight, Relating to housing authorities.

## Wilkinson To File For Re-Election

City Councilman Rees Wilkinson said Wednesday that he would, in all probability, be a candidate to succeed himself in the coming city primary election.

Wilkinson has been most noted during his time on the council for his work on tax issues.

He has engaged in a number of campaigns to unite under one head the city and county tax department. The present system, according to Wilkinson, results in unfair assessments and useless duplication.

The council has elected Wilkinson chairman of the equalization board since he has been on the council.

### Demands Utilities Tax.

One of the councilman's most recent demands calls for a city tax on municipal utilities. He has been largely responsible for the present occupation tax paid by the utilities.

Wilkinson has said he believes parking and traffic are two of the greatest problems facing the city today. In that line he is now serving on a committee for the opening of P street over the Rock Island railroad tracks.

He has also advocated the opening of Thirty-third street over the Antelope park creek.

This week the city council approved a resolution by Wilkinson calling for the appointment of a committee to study the feasibility of establishing city owned and operated parking lots.

## National Church Meet Next June At Scottsbluff

SCOTTSBLUFF, Neb.—(AP)—The general conference of the German Congregational churches of the United States will hold its national convention here June 13-17. Rev. Robert Miller, pastor of the Immanuel Congregational church, has announced.

Scottsbluff was chosen as the 1951 convention site two years ago when the churchmen gathered at Billings, Mont., but the choice of dates was left up to the host church, Miller said.

Approximately 1,500 persons are expected to attend.

### Olga Nethersole Dies

BOURNEMOUTH, Eng.—(AP)—Olga Nethersole, 80, English actress whose impassioned performances in long gone years drew international attention, died Tuesday night.

After 26 years in the theater, Miss Nethersole turned earnestly to social work. She founded the women's International Anti-tuberculosis league.

## —Big Three— New Note To Russ Drafted

### No Hedging Wanted By Western Powers On Proposed Talks

PARIS — (AP) — Reliable sources said Wednesday the Big Three western powers have drafted a new note to Russia asking her to state unequivocally whether she is willing to discuss all questions threatening world peace.

The informants said the note was drawn up in Washington by U.S. state department officials and the French and British ambassadors to the United States.

The big snag in arrangements for a Big Four conference on German rearmament, originally suggested by Russia Nov. 3, has been:

Will the Soviet Union discuss all questions, including world peace and threatening war, or limit her participation to the question of Germany?

### Chances Fair

If the Russians will come forward with a hard and fast answer—and stick by it—observers believe there is a fair chance for a get-together.

France's interest was reflected in a declaration by Defense Minister Jules Moch:

"However rocky, tortuous or uncertain seem to us the conversations that will take place, they should be continued—come what may."

Moch's remarks might be interpreted as designed to arouse more enthusiasm for four-power talks in the United States, which was disappointed with the Russian reply to the west's qualified acceptance Dec. 22 of the Nov. 3 invitation.

### Want Wide Discussion

The western powers agreed to a meeting, but only on condition that a wide range of subjects be discussed.

The United States called the Russian response Jan. 1 ambiguous and full of traps and asked for clarification of Moscow's intentions. France and, to a certain extent, Britain favored accepting the Russian reply and getting on with arrangements.

Most Europeans cling to the hope of a Big Four conference as a measure of staving off war.

## Availability More Natural Gas Uncertain

... Says Merriam

OMAHA—(AP)—The Northern Natural Gas company has advised its utility customers that it cannot yet say whether more natural gas will be available to them in the operating year beginning next Oct. 27.

Northern Natural wholesales gas to 28 companies serving 230 communities in Nebraska, Kansas, Minnesota and Iowa. Omaha and Lincoln, Neb., Des Moines and Sioux City, Ia., Minneapolis, Minn., and Sioux Falls, S.D., the among the cities served.

### Depends On Rate Increases.

John F. Merriam, president of Northern, has written the utilities that an increase in the gas supply available depends upon whether Northern Natural's gathering and pipeline systems can be expanded. And this, in turn, depends upon rate increases sought by the firm, he said.

Pending before federal power commission are two requests for rate increases, totaling about 30 per cent. The \$7,400,000 in additional revenue which the rate increases would yield is needed to get the expansion program under way, Merriam said. One of the two rate boosts, a 14 per cent increase, already is in effect under a tentative FPG authorization. It could be withdrawn or reduced, however, and Northern Natural would have to refund the money collected.

## War Censors On Job Today

... Army In Control

TOKYO—(AP)—All news of United Nations ground fighting in Korea will go under the control of U. S. Eighth army headquarters Thursday.

The Eighth army, with its strict censorship, is taking over all the ground news from Gen. MacArthur's headquarters.

The order applies to official military summaries as well as to censorship of dispatches written by field correspondents.

News of aerial operations will be censored and released by the Far East air forces, and the commander of Far East naval forces will similarly control dispatches on naval activities.

Tokyo headquarters will cease issuing releases pertaining to military operations, said Col. M. P. Echols, Gen. MacArthur's chief information officer.

## Thompson Is Club Head C.C. Contact

Ted Thompson is new Contact club chairman of the Lincoln chamber of commerce, it was announced Wednesday night during a "victory dinner" at the chamber.

He succeeds Morris Siegel, the 1950 chairman. During Siegel's chairmanship the club secured 432 new chamber memberships, it was announced. Of these, 332 were senior memberships, 64 Jaycees, 30 associates, and six women's division.

Siegel was presented a special leadership award during the dinner, at which chamber President Al DuTeau was an honor guest. Other awards—super-colossal quota busters, Dave Stavland, Lloyd LeZotte and Ellis Verink; "master" quota buster, Wilbur Miller; and quota busters, Siegel, Pat Barton, Leo Hill, E. B. Engle, Bill Titterton, Ernie Weir, sr., and J. M. McDonald.

As of Jan. 1, it was revealed, the chamber membership came to 3,502, as compared with 3,427 the year before. The detailed figures:

	1951	1950
Senior	332	1,763
Life	141	146
Associate	124	124
Junior Chamber	780	797
Women's division	604	597

### 2 Lobbyists File

Farley Young and Max G. Towle, both of Lincoln, Wednesday filed with the secretary of state as lobbyists during the state legislative session, representing Claire Helmsdoerfer. The two said they were interested in legislation regarding fireworks.

## Kellogg's CORN POPS

The great new corn cereal

with the sweetenin' already on it!

Kids know what they like—and they know when they get it. Junior Jurors came—they saw—they tasted Corn Pops. And they never stopped eating. They really went wild over Corn Pops.

And is it good for them? Read this ...

Corn Pops has the things that you'd want their cereal to have. It's rich in food energy—quickly available food energy. Lots of vitamin D, plus whole-corn values of other important vitamins that kids need. And all in crisp, puffed-up golden nuggets of flavor.

The kids have voted Corn Pops their cereal, but it's just as great eating for you and Dad. And it's at your grocer's—now.

Now in new weather-proof inner pack!

Another Kellogg First! Kellogg's new aluminum Weather-Foil Inner Pack keeps Corn Pops crisp and fresh up to 10 times longer. And Corn Pops stay fresh until they're all gone because you can fold the Inner Pack bag back and reseal it every time you use it.

THE NEW BREAKFAST CEREAL Kellogg's Corn Pops

It's already sweetened. Ready for milk or cream

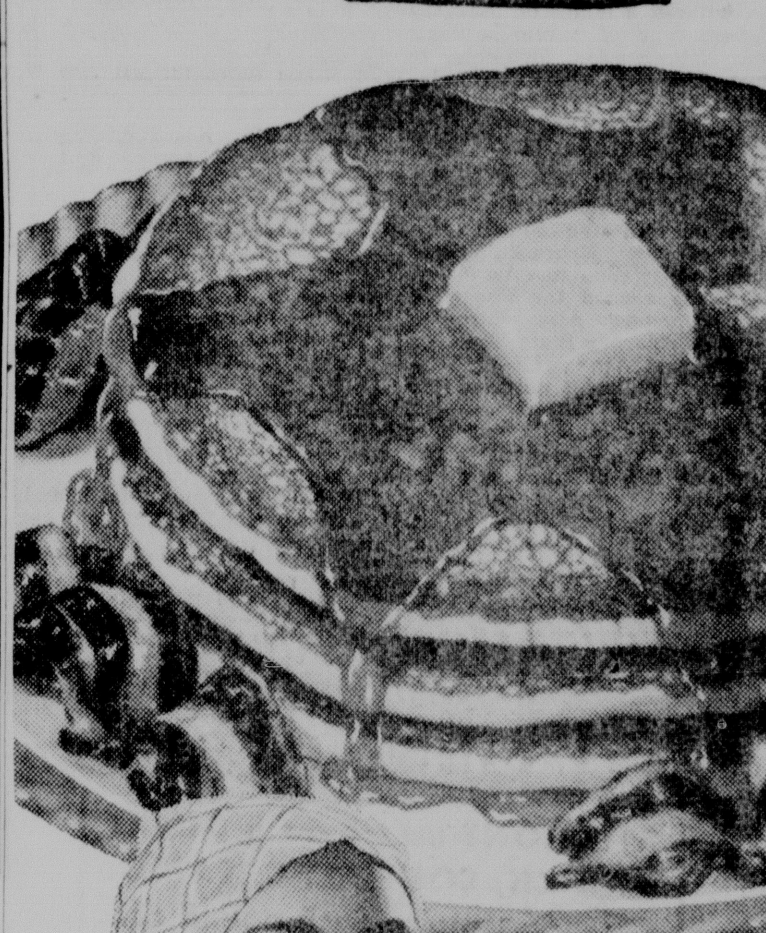

so Light so Tender...

# Military May Be Too Soft

"Luxurious In A Way," Sec. Marshall Suggests In Off The Record Talk

WASHINGTON—(AP)—Secretary of Defense Marshall said Wednesday the standards set up for supplying services to American fighting men may be "too luxurious in a way."

Although Marshall was testifying before a public hearing of the senate armed services committee with several hundred people present—including a reporter

for the Russian news agency Tass—he asked the statement be "off the record."

That meant he did not intend for it to be printed either in the official transcript of the committee's hearings or in the newspapers.

Marshall said he did not want to speak on the record for fear it might damage the morale of the men "in the field."

This is how it came about: Sen. Bridges (R-NH) asked Marshall whether too much military manpower is going into supply and service details.

Supply Troops Many

Bridges said he understands that out of 100,000 men in the U.S. armed forces there would be only 23,000 actual fighting troops but that Russia would have around 80,000 fighting men from each 100,000.

Marshall said large numbers of men are needed to get troops to their destinations outside this country and keep them supplied once they are there.

# Shows Good Year's Gains First Presbyterian Church

Membership in the First Presbyterian church has increased considerably in the last year, according to a report at the church's eighth annual meeting Wednesday night.

The present membership of 2,201 represents an increase of 132 persons. Enrollment in the church school has also been raised from 487 to 613 in the past year, the report revealed.

The total church income for 1950 was \$62,154.30. This includes \$48,342 received in contributions for local operations, and total benevolences of \$13,811, report by the church treasurer pointed out.

Special Gifts

In addition to the above income, the church received \$24,398 in special contributions, most of which represents gifts to the youth memorial fund.

The congregation also heard a report from the committee in charge of raising funds and making plans for the erection of a new addition to the church. Dr. G. W. Rosenlog, clerk of the church sessions, stated that ground for the project will be broken.

The pastor, Dr. C. Vin White, reported on the work of the church and called attention to four objectives for 1951. They are:

1. Deeper spirituality.
2. Increasing life enrichment.
3. A clearer conception of the meaning of church membership.
4. A spiritual renewal, leading to a revitalized and an expanded program.

Following is the result of the annual church elections:

For the board of elders: Dr. Walter C. Briggs, Dr. W. H. Morton, Perry W. Branch, Dr. H. H. Whitlock, Hugh L. Sherwood, J. Dwight Lytle

For the board of trustees: Mrs. James W. Kinsinger, C. G. Weston, Chas. W. Brown, Verner M. Meyers, Robert A. Weckesser

# Queen Ghost Shuns Video . . . Disappoints British

LONDON—(INS)—The 400-year-old "ghost" of Queen Catherine Howard turned camera-shy Wednesday night and disappointed at least two million television viewers.

The British Broadcasting Corporation set up cameras in the 16th century red brick palace 15 miles out of London, but the wraith of King Henry VIII's decapitated fifth wife, although she had a stellar role for which a modern actress would have given her eyeteeth, failed to appear.

So a BBC commentator described the interior of the palace. That was the real reason for the program, but a BBC spokesman said he wished Catherine would have showed up.

# Autopsy Planned In Reid's Death

COUNCIL BLUFFS, Ia.—(AP)—William Reid, 80-year-old resident of a convalescent home here, died Wednesday shortly after he was found lying in a locomotive "blow-off" pit in the Illinois Central railroad yard.

Coroner Henry Meyer, who made the identification, said an autopsy was planned.

Mother, Four Children Among Victims Of Fire

COLFAX, Wash.—(INS)—Six people lost their lives—four of them children—when fire swept their home here Wednesday.

The victims were identified as a mother and her four children, and her brother.

The husband and father, Robert Walker, 26, was burned critically when he tried to save his family, trapped on the second floor.

A defective furnace was blamed for the blaze.

# Doane Biologist Will Receive Her Ph.D. This Month

CRETE, Neb.—(AP)—Katherine M. Buell, associate professor of biology at Doane college, is due to receive her doctor of philosophy degree from the University of Wisconsin later this month, Vice-President G. W. Lindberg said Wednesday.

She received her A. B. degree from Oberlin, O., college in 1933 and her master's degree from Washington university in 1935. Since receiving her master's, she carried on graduate study at Washington, Colorado and Wisconsin universities and the Marine Biological laboratory in Washington, D. C.

The biologist has been a member of the Doane faculty since 1936 and has won several scholarships in which she received aid toward carrying on her graduate study.

# Stafford Heads Scottsbluff Bank

SCOTTSBLUFF, Neb.—(AP)—W. J. Stafford was re-elected president of the Scottsbluff National bank at a meeting of the board of directors.

Stafford, a native of Norfolk, Neb., reported to the board that the institution at the close of 1950 had resources totaling \$12,103,450.73, the largest figure reported by any bank in western Nebraska.

HERE is a pleasant little game that will give you a message every day. It is a numerical puzzle designed to spell out your fortune. Count the letters in your first name. If the number of letters is 6 or more, subtract 4. If the number is less than 6, add 3. The result is your key number. Start at the upper left-hand corner of the rectangle and check every one of your key numbers, left to right. Then read the message the letters under the checked figures give you.

C.D. Planning Told Sertoma Members

State civil defense needs, the plans already formulated and the individual's responsibility within the plan were reviewed by Ed Gillette, state civil defense director.

Gillette spoke before the Sertoma club luncheon at the chamber of commerce. Vaulx Risser presided.

Naval, Air Force Enlistments Braked

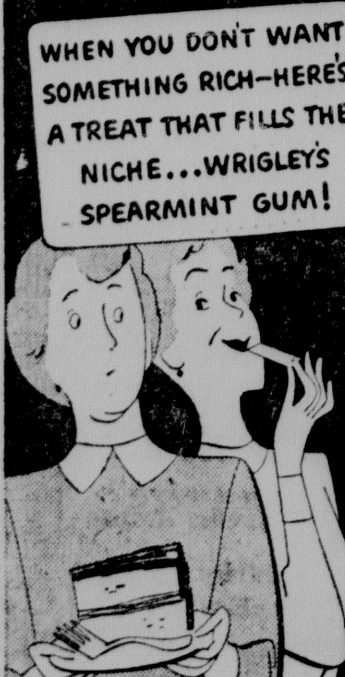

Air force enlistments have been limited to 10 a day in Nebraska, and navy enlistments at Lincoln have been closed altogether this week.

That was the story Friday morning from recruiting officials who said training facilities have been overcrowded by post-holiday enlistments.

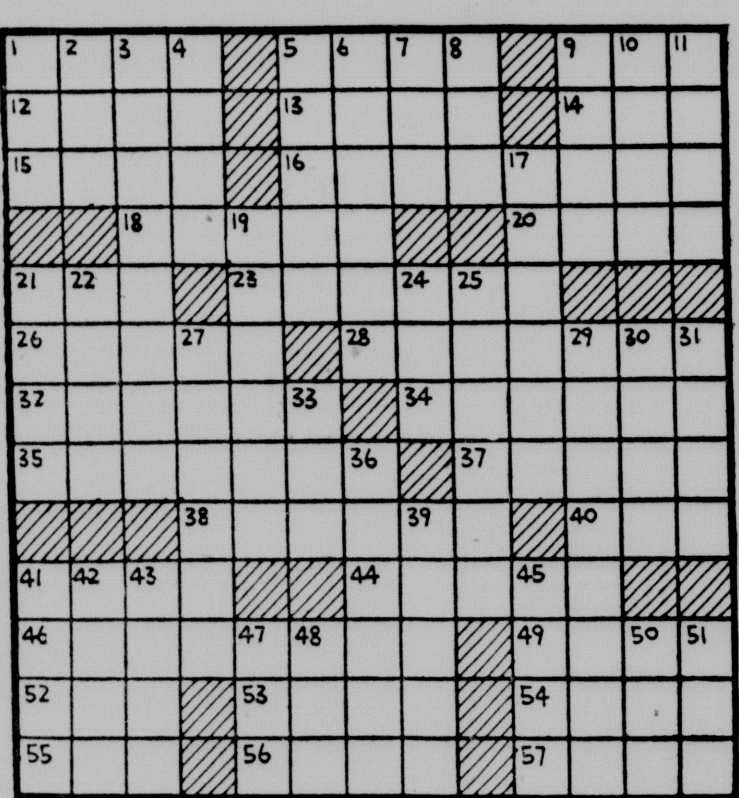

Naval enlistments will be on a "limited quota" next week, but are expected to open up again later on. Applications are still being taken, according to Chief Patrick Higgins, and men will be taken in that order.

The air force limit does not apply to men with two years of college or with prior military experience, Capt. Donald H. Lewis said.

Army enlistments, however, are still unrestricted as to number. Draft-age men may volunteer for 21-month duty, (same length of time required by the draft), if they have not yet received their pre-induction notice.

## Army's OK Expected On Alma Road

### Contracts Will Be Let After Approval

Army engineer's approval was expected Friday on the bids on the rebuilding of Highway 183-383 across the Harlan county dam reservoir.

State Engineer Fred Klietsch said that as soon as the engineers' approval is received, the contracts will be let.

Copies of the bids which the state selected are now in the hands of the engineers, Klietsch explained.

**Firms Selected**  
The state selected the following firms to whom the contracts will be let if the army engineers concur:

Missouri Valley Construction company, Omaha, \$1,102,745, for all work except the bridges.

Bushman Construction company, St. Joseph, Mo., \$581,732, for bridges.

## Illness Takes Second Youth

SALISBURY, N. C. —(AP)—Lloyd Pinion, 17, second of three brothers afflicted by a muscular disease, has died at his mother's home.

Lloyd's older brother, David, died in August, 1946. Billy, 19, survives with the mother. A sister has not been afflicted.

For the last six years they have lived on contributions sent in from over the nation after their plight was first revealed. Some \$1,000 was raised.

Doctors called the ailment muscular dystrophy, which attacks the respiratory powers. In many cases it is inherited.

In New York City four young brothers, similarly afflicted, are calmly awaiting death in their tenement flat. They are the Godfrey brothers, George, Jr., 24, harder to climb the five star flights to the flat. The doctors said it was muscular dystrophy.

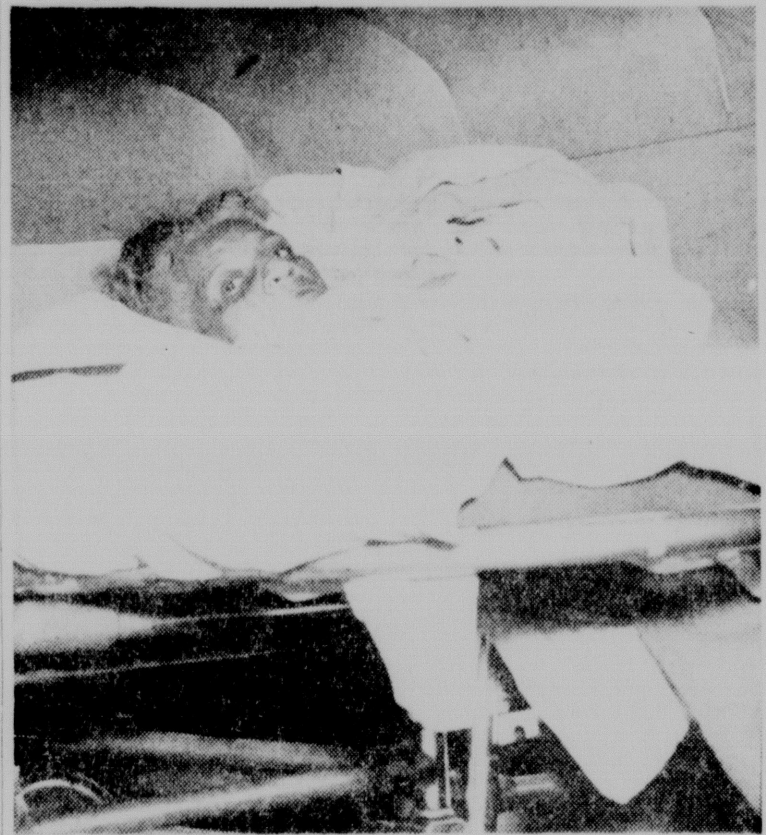

### K. Of C. Anniversary

The forty-seventh anniversary of the Knights of Columbus February 4, will be observed by Lincoln members by a dinner and dance at Cotner Terrace. Initiation ceremonies will be held earlier.

## Arrive By Ambulance To Make Home Here

HOME WITH GRANDSON is William Davis, 78, who left his life-long home, only to find a new one here. It was a joyous moment when Tommy, 5, ran out to greet him, shouting: "Hi, grandpaw." (Star Photo.)

AFTER ALL-DAY AMBULANCE TRIP, Mrs. William Davis was taken to St. Elizabeth hospital for examination. In a couple days she will join her husband and family at 820 C, where they will make their new home. (Star Photo.)

By JOE VOSOBA  
(Star Staff Writer)

The old truth that 'home is where the heart is' was demonstrated again Wednesday evening in the happy faces of an elderly Missouri couple.

Together 51 years, they came together—in the same ambulance—to make a new home in Lincoln with their son and his family at 820 C.

Mr. and Mrs. William Davis are both crippled. They are both in their 70's, late in life to be leaving their friends and home at New Bloomfield, Mo.

But when five-year-old grandson Tommy ran out the door and shouted "Hi, grandpaw," they knew they were home.

Mrs. Davis, 74, was taken directly to St. Elizabeth hospital for a couple days' examination. She has been bedfast for six weeks, since suffering two strokes within a month.

**Semi-invalid from Polio.**  
Davis has been a semi-invalid since a polio attack as a child. Despite this, he worked until seven years ago as a lumber-yard attendant.

As soon as he settled himself in an easy chair, the 78-year-old man eagerly told about the 400-mile ambulance trip ("longest trip of my life"), and their farewell from New Bloomfield.

"You should have seen all the people—white and colored—that came down to see us off," he smiled. "We never did know we had so many friends."

Then he told about how he had been born at New Bloomfield, had built his home and reared his family there, and had never lived more than three miles away in all his life.

"But I feel right at home here with my children and grandchildren," he said, smiling again. "My wife and I are still together."

"They've been together so long," his daughter-in-law, Mrs. W. B. Davis, said. "We don't want to separate them now."

### Mrs. Brokaw Rites To Be Here Friday

Funeral services for Mrs. Maggie R. Brokaw, 83, who died at Clarinda, Ia., Tuesday, will be held at Wyuka chapel at 3 p.m. Friday.

Mrs. Brokaw was a former resident of Bethany, Neb.

### Lt. Shaw Visits Here

Lt. G. J. Shaw, and Mrs. Shaw, visited his parents, Mr. and Mrs. E. J. Shaw, at 301 South Eighteenth street. Lt. Shaw spent five months with the navy in Korea.

Lt. Shaw was flown from Japan to Oakland, Calif., and from there assigned to duty in the medical dispensary of the Norfolk, Va., naval air station.

### Cerebral Palsy Unit Gets Mother-In-Law's Nightie

NEW YORK—(AP)—The Cerebral Palsy association said Wednesday its appeal for used Christmas cards for child victims of the disease has netted more than 10,000,000.

It also netted something else. A Washington woman—not identified—said she gave her husband the cards in one package and a silk nightgown for her mother-in-law.

The husband mailed the cards to his mother-in-law, the silk nightgown to the association.

### State's Cash Balance Over \$50 Million

Nebraska had a cash balance of \$15,594,693 at the end of 1950, an increase of more than a million dollars over the previous month, the state treasurer's office reported Thursday.

The increase was brought about by a boost in the general fund balance from \$804,124 at the end of December, caused by payment to the fund of end of the year fees.

Cash receipts during the month of December amounted to \$7,373,477 and warrants paid totaled \$8,441,999. There was still \$1,877,318 in warrants outstanding at the end of the year.

Cash receipts from federal funds during the month totaled \$1,814,713.

Total cash balance at the end of the year, including federal funds, current and permanent trust funds, and current revenue totaled \$29,967,492.

### Mrs. Victor Wilson Dies In California

Mrs. Helen P. Wilson, 73, widow of former Nebraska state railway commissioner Victor E. Wilson, died Friday, Jan. 5, at Mill Valley, Calif.

Mrs. Wilson, the former Helen Lundeen, was a daughter of N. P. Lundeen of York, Nebraska's first inspector general of the national guard.

Mr. Wilson became president of the Stromsburg First National bank in 1906. Later he served in the state legislature, practiced law in Stromsburg and served one term as Polk county attorney.

In 1916 he was elected state railway commissioner. Mr. Wilson went back to law practice in 1919 in Lincoln.

### Remington Case Rested

#### ... By Prosecution

NEW YORK—(AP)—The government rested its perjury case against William W. Remington Wednesday with testimony that he became a communist because his father was a capitalist "stooge" and he wanted to improve "the general situation."

Remington is on trial accused of perjuring himself in stating falsely before a federal grand jury last year that he never was a communist party member.

Robb F. Kelley, Philadelphia insurance executive and former Dartmouth college classmate of Remington, was the final government witness.

He said Remington admitted being a communist in 1938 while both were attending a conference at Cornell university, Ithaca, N.Y., on "making democracy work."

When the prosecution rested, Federal Judge Gregory F. Noonan excused the jury until Friday.

### Wilson Estate \$183,757

Value of the estate of Claude S. Wilson, late Lincoln attorney, has been appraised at \$183,757 in County court. A Lincoln property is valued at \$18,500, and two farm properties at \$65,275. The rest, mostly stocks, is comprised of personal property.

### Old Age Bad Outlook Harms Individual

Individuals approaching retirement age must gain a proper outlook on life or they will suffer mental, moral and physical maladjustments, warned Dr. Harry E. Flansburg Wednesday.

Dr. Flansburg spoke before the Hiram club luncheon meeting at the Y.W.C.A. His topic: "Some of the Problems of Retirement." O. R. Frey introduced the speaker.

### Parking Meters Bring \$4,166 Below Estimate

Parking meter receipts of \$30,-278.07 for the first quarter of the fiscal year starting Sept. 1 average out \$4,166 below the estimated \$95,000 revenue for the year.

City Finance Director Theo Berg pointed out that extensive construction and street repair work was tying up many of the meters with the resulting lower revenue.

November was the lowest

### Big Jet Transport Sets Speed Record

TORONTO—(AP)—The Canadian-built Avro jetliner, only jet-powered commercial transport in North America, completed Wednesday a record-breaking, 1,570-mile triangular flight—with stops at Chicago and New York—in four hours and 22 minutes.

Officials of the A. V. Roe (Canada) Limited said the flying time of regular airlines over the same route is seven hours and 20 minutes. The flight from Chicago to New York was made in one hour and 42 minutes, a new record for transport-type planes. The old record was one hour and 51 minutes.

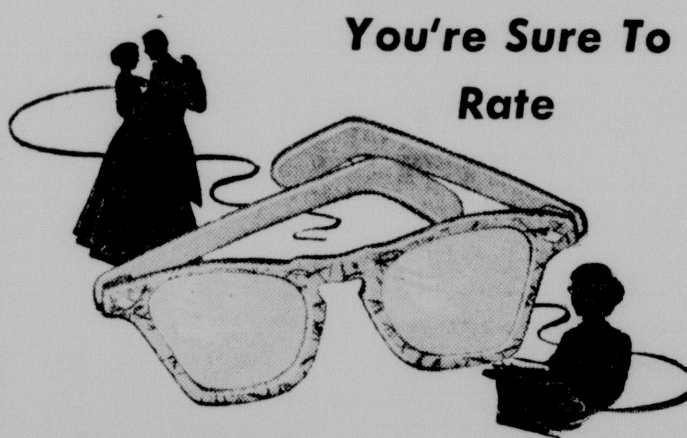

The big plane reached a ground speed of 520 miles an hour on the flight from Chicago to New York. It averaged 360 miles an hour for the 1,570 miles.
